

MCAS Miramar's Blucher is USMC's Federal Engineer of the Year Recipient

Ms Megan Blucher, of MCAS Miramar, was recognized at a recent National Press Club ceremony in Washington, D.C. honoring award recipients in the annual Federal Engineer of the Year Award (FEYA) program. Ms Blucher won as the top engineer in the U.S. Marine Corps.

"I am very pleased to congratulate Ms Blucher on this tremendous recognition as the Marine Corps' winner and thank her for the engineering leadership provided as well as her many valuable contributions to the Corps," said MajGen Juan Ayala, Commanding General, Marine Corps Installations Command (MCICOM). In the FEYA program, the top federal engineers – one each from 25 agencies, departments and military branches – are honored.

The FEYA awards are presented annually by the National Society of Professional Engineers (NSPE). This is the 36th year that the awards have been presented.

Ms. Megan Blucher, Engineering Branch Manager at MCAS Miramar's Facilities Engineering Branch receives an award as the Marine Corps' top engineer for 2014. Congratulating her from left are NSPE President, Harve Hnatiuk, MajGen Juan Ayala and NSPE Board Member David Scott Wolf at the ceremony held at the National Press Club in Washington, D.C.
