Subj: USMC ENERGY INVESTMENT PROGRAM (EIP) GUIDANCE

Encl: (1) USMC EIP Project Documentation Instruction (Version
1.1 June 2013)

1. The enclosure provides revised Energy Investment Program (EIP) guidance that incorporates new requirements for documenting non-monetary benefits for projects submitted that are not otherwise cost effective and a new life cycle cost analysis (LCCA) worksheet to be provided for all new EIP projects.

2. New non-monetary benefit documentation requirements address Naval Audit Service recommendations for better documentation of those benefits. The new life cycle cost worksheet provides more complete documentation of LCCA calculations. The revised guidance becomes effective immediately.

3. Point of contact for this guidance is Mr. Randy Monohan, Energy Projects Officer, 571-256-2830, randy.monohan@usmc.mil.
