

BARRACKS 2030

VISION

We will improve our Marines' quality of life through meaningful near-term and long-term investments in our barracks. We will professionalize barracks management now for immediate impact.

We will maximize investments now to modernize and right-size facilities with a sustainable model.

“Taking care of Marines is a warfighting function. Otherwise, they cannot focus on the mission at hand. Barracks, chow halls and gyms are key to retaining Marines, and investments in quality of life initiatives are truly warfighting needs.”

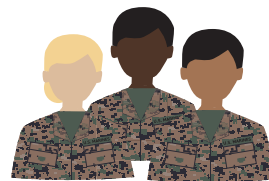

- General Eric Smith, 39th Commandant of the Marine Corps

MANAGEMENT

- Professionalize and streamline barracks management.
- Improve responsiveness to Marines' requests.
- Provide basic allowance for housing to well-deserving sergeants.

MODERNIZATION

- Repair rooms in-stride.
- Reconfigure and right-size barracks footprint.
- Re-capitalize barracks and pursue Public Private Venture relationships.

MATERIAL

- Standardize furniture acquisition.
- Update furnishings, recreational rooms and common areas more frequently.
